

## Clean Energy & Sustainable Development Industry Business Networking Series

Date: **Wed, 18 March 2009** Time: **5 – 7.30pm**

Venue: **SBF Seminar Room 2** (21<sup>st</sup> level, Keppel Towers)

\* Fee per pax (incl GST): **S\$42** (Members of SBF & Joint Organizers) **S\$63** (Non Member)

**Program Outline** - The Clean Energy and Sustainable Development Industry worldwide is experiencing robust global growth due to rising energy demand, climate change concerns and technological advances. This industry networking session by SBF Clean Energy Business Group (CEBG) is organized on a bi-monthly basis to help build up the community of companies and professionals from the industry. Each session features a short keynote by a leading speaker around a different theme related to the clean energy and sustainable development industry. Participants can expect easy interaction, networking, learning and experience sharing as well as business matching opportunities in an informal ambience.

**Clean Energy and Sustainable Development Ecosystem** - The clean energy and sustainable development industry is cross sectoral and spans various industry verticals and functional areas - chemical, energy and utilities, environmental management and waste recycling, renewable energy, energy efficiency (across manufacturing, transport/logistics, building & real estate), green IT/computing as well as clean energy VCs and financing, project management and consultancy, government agencies, academic and research institutes, energy audit professionals, etc.

**Target Audience** – SBF, BESS and SEAS members, as well as business and industry professionals in clean energy and sustainable development industry.

**About LIPOCHEM** - LIPOCHEM is a pioneer in Palm Biodiesel Process engineering and is the Plant Provider to the World's First Integrated Palm Biodiesel Plant. It is also a leading supplier of Palm Oil Refining Process Plants. The LIPOCHEM Group's core business is process technologies for palm biodiesel, fats & oils and related products specializing in: (1) Process Design and Engineering; (2) Process Consultation and Services, and (3) Complete Process Plant Supply.

**About the Speaker** - Mr. Toh has 15 years of experience in the edible oils industry as Project Engineer and Engineering Manager in Scandinavian and Singaporean multinational companies where he managed the design, construction & commissioning of edible refining plants in South East Asia. His other experience include positions as Engineering Manager in a Swiss multinational food manufacturing plant in Singapore and also as a Senior Engineer in the area of reverse osmosis and thermal desalination of seawater for a R & D Company in Singapore.
