Clean Energy Testbedding Community (CETC) Business Facilitation Series

"Reduction of Business Costs Through Energy Efficiency Solutions"

Date: **Thu, 16 April 2009** Time: **8.30am – 1.30pm**

Venue: **SBF Seminar Room 2** *(21st level, Keppel Towers)*

Fee per pax *(incl GST)*: **S$42 (Member of SBF, co-organizers and partners) S$63 (Non Member)**

Objectives:-

Participants will find out:-

1) how they can reduce business costs through adoption of energy efficiency solutions and take advantage of government assistance/incentive schemes
2) new innovative energy efficiency solutions for different business/industry sectors
3) how to join Clean Energy Testbedding Community (CETC) to benefit from testbedding in energy efficiency solutions

Target Audience - Companies and businesses across building/real estate, manufacturing, technology and other sectors interested to look at energy efficiency solutions.

Clean Energy Testbedding Community (CETC) is jointly established by SBF and Temasek Polytechnic (TP) to complement the effort of the SBF Clean Energy Business Group (CEBG) and the Singapore Fuel Cell Community (FCC) hosted by TP. Supported by Economic Development Board, CETC is targeted at business and technological cooperation to test bed and pilot Fuel Cell and other Clean Energy Technologies (CET) and Applications for adoption.

Singapore Certified Energy Manager (SCEM) Program

SCEM offers a formal training and certification system in the area of energy management. Designed for engineering professionals who intend to build their career as energy managers, the programme gives a thorough understanding of the key energy issues either in the building or industry sector. It will help participants develop the technical skills and competence needed to manage energy services and management work within the organization they serve. Sustainable Energy Association of Singapore (SEAS) is the provider of SCEM Professional & Associate programme.

Business Guide to Energy Efficiency in the Asia Pacific Region

This report is dedicated to exploring energy efficiency possibilities in the Asia Pacific region. It covers a wide range of topics from inherent market conditions to financing opportunities, as well as insights for potential investor & related parties in industry.

This seminar is co-organized by SBF CEBG, TP and Sustainable Energy Association of Singapore (SEAS), industry lead for clean and sustainable energy. There will be a technology showcase of energy efficiency solutions by companies. **Also, be the first 30 to receive a gift* when you present your electricity bill at Tuas Power booth. *Terms and conditions apply.**
