

Business Continuity Management through SS540: Are you game for it?

Date: **Fri, 16 July 2010** Time: **2.00 to 4.30pm**

Venue: **Furama RiverFront Hotel
(405 Havelock Road)**

Fees: **Complimentary**

Introduction

Nearly 50% of organizations who experience a disaster with no effective continuity plan will cease trading within 12 months. Even those that have done some planning (but not effectively) will suffer long-term losses in shareholder value compared to those who are properly prepared.

Recent events have highlighted the potential vulnerabilities of businesses around the world. The common factor in each case was that the organization was prepared, had planned and rehearsed its response and was therefore able to respond quickly and/or recover operations in order to maintain acceptable services to its customers.

Hear from the industry experts at **Deloitte**, **TÜV SÜD** and **Singapore Business Federation** as they discuss:

- National Business Continuity Management (BCM) Programme
- BCM certification Process
- Flu Pandemic Business Continuity Verification
- Business Resilience through SS540
