## Enhancing Your Business Resilience and Sustainability via Business Continuity Management (BCM)

Date: **Wednesday, 4 August 2010**      Time: **2 to 5.00pm**

Venue: **Swissôtel Merchant Court, Ballroom** (20 Merchant Road)

Fee per pax (incl GST): **\$20** (SBF, SCIC and ASPRI members)    **\$30** (Non Members)

### Introduction

Unmanaged risk, in a world of constant change, does happens. It is the greatest source of waste in your business and in our economy as a whole. In a high risk industry, chemical companies find themselves prone to hazards such as chemical spills and fire outbreaks that may cut off access to facilities and disrupt business. Aside from workplace hazards, there are other threats such as flu pandemic, IT failure, loss of critical service providers and etc.

There are realistic questions that companies need to constantly ask themselves.

“Do you know what your business risks are? How prepared are you to manage the risk of any disruption? How well do you understand, identify, anticipate, and mitigate your business risk, thereby averting unnecessary losses?”

Your business’s resiliency and sustainability, the economy and social well being of your employees are relying on your answers. Do you have the answers?

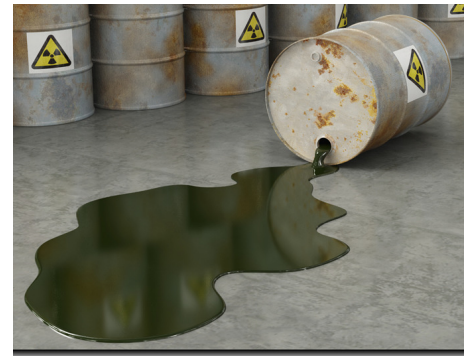

SPRING Singapore, together with the Singapore Business Federation (SBF), the Association of Process Industry (ASPRI) and the Singapore Chemical Industry Council (SCIC) are pleased to present a half-day seminar to share insights on how to build up business resilience through Business Continuity Management (BCM).

Come join us to find out how you can be BCM ready and build competitive advantage over your competitors.
