In a major project to replace IAS 39 in its entirety by the end of 2010, the International Accounting Standards Board issued International Financial Reporting Standard (IFRS) 9 on November 2009. IFRS 9 incorporates Phase 1 of the financial instruments' project to replace the classification and measurement requirements on financial assets in IAS 39 Financial Instruments: Recognition and Measurement. The new standard will have major implications for reporting entities, auditors, analysts and investors when adopted

The objective of the workshop is to provide a detailed walk-through of the requirements in IFRS 9 Financial Instruments, the key decisions required and options allowed in IFRS 9, interactions and comparisons with IAS 39 and an explanation of the underlying motivations and rationale of the requirements in IFRS 9.
