

1. General Information

The convergence of high oil prices, climate change concerns and energy security interests has fostered a surge of interest in clean energy and sustainable development. Singapore has identified several sectors for focused development, including solar, fuel cell, biofuels, energy efficiency, and other green urban and eco-city solutions. Hence, opportunities are tremendous for companies venturing into this fast emerging industry.

2. About SBF Sustainable Development Business Group

SBF Sustainable Development Business Group (SDBG) is formed as an interest group for member companies interested in adoption and/or commercialization of clean, efficient and green solutions spanning clean energy and sustainable development.

It is to connect members to various industry verticals, technology partners, link them to business leads in the clean energy and sustainable development sector and facilitate them in tapping into available schemes, incentives, and sources for funding for their clean energy and sustainable development plans.

SDBG will work with various organizations to facilitate members in their adoption or commercialization of clean and green solutions in areas such as Energy Efficiency, Green Building and Facilities Management, Environmental Management, Waste Recycling, Green IT & Data Centre, Sustainable Water Solutions, Sustainable Manufacturing and Sustainable Business Practices.

3. Activities

Activities and programs, organized to deepen members' understanding of the business sector and offer opportunities to network with key business, industry and government agency contacts, include:

- Business forums & seminars
- Business roundtables & matching
- Networking events
- Dialogue sessions
- Facilitated company & project meetings
- Participation in exhibitions & tradeshows

4. Benefits of Joining SDBG

These benefits include, but are not restricted to:

- Priority or exclusive invitation to SDBG and SBF activities, to join as speakers or participant, or company showcase.
- Enjoy lower participation fees for events which are also opened to non-members.
- Members can tap on SBF's Global Business Division (GBD) and its Middle East Business Group (MEBG) and China Business Group (CBG), etc. to gain access to various overseas markets.
- SDBG will be able to link members with other fellow SDBG members that are able to provide them support/consultation in the areas of business feasibility studies, business requirements specifications, project ROI studies, funding needs analyses and the liaisons for regulatory approvals, for their clean energy plans.
- Gain access to support from the Clean Energy Test-Bedding Community (CETC), a joint initiative by SBF's CEBG and Temasek Polytechnic (TP)'s Fuel Cell Community (FCC). Through

CETC, companies can gain access to technical support in their clean energy project test-bedding and implementation /commercialization.

(To find out more about Clean Energy Testbedding Community, please visit <http://cetc.sbf.org.sg>)

- Receive assistance in gaining access to existing and future available sources of funding for their clean energy project implementation and consultancy needs.
- Ability to tap on SDBG support infrastructure including a web portal which will provide an online version of the Singapore Sustainable Development Industry Directory and highlight business and collaboration opportunities.

5. SDBG Online

To help enhance the connectivity amongst our member companies, SBF has also created the online Sustainable Development Business Group portal, as the internet platform for connecting like-minded enterprises to clean and green solutions and opportunities.
