Dear Mr. Tony Chew

BCCI delegation to Singapore

After our safe return to Bahrain, it gives me immense pleasure to express our deepest thanks to you for the warm hospitality and fruitful program organized under your leadership by the Singapore Business Federation

The program was meticulously organized in consonance with the objectives of the visit and to make our stay in Singapore quite enjoyable. Indeed, the business matching session shed light on potential areas for fruitful cooperation between the respective business communities.

The Memorandum of Understanding (MOU) signed by SBF and BCCI, we believe, will serve as the frame work for further cooperation between our organizations for augmenting the bilateral relations between the respective business sectors of our countries.

The business matching session facilitated interaction with our counterparts to identify suitable business sectors for possible productive cooperation, We found the session, which focused on various feasible emerging opportunities on which the business communities of the two countries can capitalize for forging fruitful business links. We believe our mutual cooperation and support can lead to the crafting of mutually beneficial projects and trade links that is beneficial for our respective business communities.

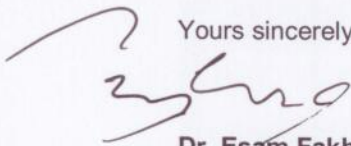

We were certainly honoured by the Lunch hosted by your good self. It was a remarkable opportunity to share our ideas and experience and to discuss possible potential areas for building up fruitful business cooperation between our respective business communities.
