SINGAPORE WOMEN ENTREPRENEURS NETWORK

Empowering Women Entrepreneurs To Reach Their Full Potential

THE SG-WEN STORY

The hard truth: Female entrepreneurs face more challenges than their male counterparts.

Business chambers and associations are inevitably dominated by male entrepreneurs at the executive committee and membership levels.

Recognising this gap, SG-WEN was launched in September 2021 as a “for women, by women” grounds-up initiative under the Singapore Business Federation (SBF) to support women entrepreneurs.

Our network provides learning opportunities, fosters business growth, and advocates for the unique challenges women entrepreneurs face.

Our Mission

To provide a platform where Singapore women entrepreneurs and existing women networks come together to collaborate for business growth, influence culture and policy, and drive industry changes in Singapore and the Asia-Pacific, especially within ASEAN.

Our Vision

To be the pre-eminent network of women entrepreneurs in Singapore, helping them reach their full business potential for the benefit of their communities and economies.
