WHAT OUR SBF MEMBERS SAID

"I find the business matching networking at SBF is both fruitful and efficient. Within just a few hours, we were matched with potential customers and partners. I hope there will be more of these events in the future"

"It was great to go for the SBF new members' orientation and business matching. I found out more about the SBF and also was able to have meetings with various other businesses, as well as network freely with others even if I did not schedule meetings with them. I look forward to attending more SBF events in the future"

Exploring Benefits and Building Networks

We were delighted to host our recent **Members' Orientation**, welcoming over 150 attendees. Participants had the opportunity to learn more about SBF membership benefits, our activities and programmes.

This event incorporated our very first **Business Matching** session that provided a platform for meaningful connections. Notably, nearly half of the participants were Associate Members, reflecting strong interest and active participation in both the orientation and business matching experience.
