Company Name: HYDROGEN AND FUEL CELL ASSOCIATION OF SINGAPORE

Corporate Website: www.hfcas.org

Business Email: info@hfcas.org

The Hydrogen and Fuel Cell Association of Singapore (HFCAS) was formed in 2019 to provide a united voice of the hydrogen industry. HFCAS serves as a platform for networking, collaboration, and knowledge sharing. We are actively participating in the development of codes and standards for safe use of hydrogen; developing training courses to equip our workforce with the necessary skillsets for hydrogen related applications; providing business matching support to our members and counterparts, all of which to support the use of hydrogen in Singapore as a major decarbonisation pathway towards net zero by 2050.
