Solution Package Name & Version Number [1]	ESGpedia Nexus
Brief Description of Solution Package (100 words maximum)	<p>ESGpedia is a Singapore-headquartered, Asia-Pacific ESG data and technology platform that helps organisations simplify the complexity of sustainability reporting and climate action. It brings together ESG data management, greenhouse gas tracking, and reporting solutions in one digital place, supporting companies of all sizes on their sustainability journey. The platform is built to align with international reporting standards and local regulatory needs, and it is licensed by the Global Reporting Initiative and validated under ISO 14064 methodologies.</p> <p>ESGpedia powers regional programmes such as the Asia-Pacific Green Deal and the Single Accesspoint for ESG Data initiative, giving users access to harmonised ESG data, localised emission factors, and tools to turn operational data into credible, audit-ready disclosures. Its capabilities include end-to-end ESG reporting, carbon accounting across Scope 1-3, supply chain engagement, and sustainability analytics, all designed to reduce reporting effort and support compliance, investor confidence, and competitive advantage.</p>
Eligibility Period	10 February 2026 to 30 August 2026
Renewal of Eligibility Period [2]	N.A.

Standard Solution Package (i.e. minimum items to be purchased)

Item Description	Unit Cost (S\$)	Unit	Quantity	Subtotal Price (S\$)
